LOVE

SEX, GRACE, AND COMMITMENT

TO STAY

A WORKSHOP FOR COUPLES

LOVE TO STAY

Talking about marriage and love relationships is always interesting and thought provoking, especially in the context of the Christian faith.

In this course we'll explore:

- The meaning and mission of marriage, a relationship in which each person blesses the other;
- Data and research about what makes a happy marriage;
- Assurance that, no matter how happy people are in a marriage relationship, difficulties will arise that can be met with confidence, faith, and love.

The study is not a cure-all for troubled marriages. It does not replace counseling. It is also not a recipe book or a formula. It will provide some information, insights and tools for achieving a lasting and loving relationship.
